(“Akkan Enerji”), respectively, which are incorporated in the UK and Türkiye, respectively, are part of the wider “Ciner Group”. Akkan Enerji and Kew Soda’s ultimate controlling party is Mr. Turgay Ciner. The Company and Kew Soda Ltd. are parent companies in the Akkan Group, both preparing publicly available financial statements.

The global soda ash business of the Company comprises two controlled businesses, Eti Soda and Kazan Soda in Türkiye, and one controlled investment, West Soda in the USA, and two investments, namely an indirect investment in Şişecam Wyoming, and indirect investment Pacific Soda.

On 1 February 2023, Şişecam Resources LP (“Şişecam”) (NYSE: SIRE) and Şişecam Chemicals Resources LLC (“SCR”) announced that Şişecam has entered into a definitive Agreement and Plan of Merger (the “Agreement” or the “Merger”) pursuant to which Şişecam Chemicals Wyoming LLC, a wholly owned subsidiary of Şişecam Chemicals Resources LLC (“Parent”) will acquire all of the outstanding common units of Şişecam not already owned by Parent and its affiliates (the “Public Common Units”). The Agreement follows the offer made by Parent on 6 July 2022 to acquire the Public Common Units.

As a result of this Merger, the Group’s effective holding in Şişecam Wyoming LLC increased to approximately 20.4% from 15.1% and Şişecam Resources LP (“Şişecam”) (NYSE: SIRE) is delisted and merged under Şişecam Chemicals Wyoming LLC.

On 24 June 2023, the Group acquired a 60% controlling stake of Denmar Depoculuk Nakliyat ve Ticaret A.Ş. (“Denmar Türkiye”) from the Ciner Group for consideration of USD 39 million.

Soda World has acquired Imperial Mining, Minerals and Chemicals GmbH (“IMMC”) on 29 February 2024 for a consideration of EUR 20,000. Imperial Mining, Minerals and Chemicals GmbH is responsible for managing sales to the Group’s clientele in Europe through warehouses located in Netherlands and fully consolidated.

These condensed interim financial statements were approved for issue on 28 May 2024.

These condensed interim financial statements do not comprise statutory accounts within the meaning of section 434 of the Companies Act 2006. Statutory accounts for the year ended 31 December 2023 were approved on 25 April 2024 by the Board of Directors. The report of the auditors on those accounts was unqualified, did not contain an emphasis of matter paragraph and did not contain any statement under section 498 of the Companies Act 2006.

### ***Significant changes in the current reporting period***

There are no events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the end of the last annual reporting period.

### 2. Material accounting policies

#### 2.1 Financial information

The financial information is presented in US Dollars (\$, USD). Foreign operations are included in accordance with the policies set out in this note.

#### 2.2 Basis of preparation

This condensed consolidated interim financial statements for the three-month reporting period ended 31 March 2024 have been prepared in accordance with the UK-adopted International Accounting Standard 34, "Interim Financial Reporting". The disclosed policies have been consistently applied by the Group both for the current and previous financial periods with the exception of the new and amended standards adopted.

The condensed consolidated interim financial statements do not include all of the notes of the type normally included in an annual financial report. Accordingly, the condensed consolidated interim financial statements are to be read in conjunction with the annual financial report included in the Company's or Companies House websites, elsewhere.

#### Going concern

The financial statements as of and for period ended 31 March 2024 have been prepared on the going concern basis, as the Directors have determined that the Group has sufficient resources and liquidity to continue in operational existence and to meet its liabilities as they fall due for at least 12 months from the date of approval of the financial statements. In assessing the Group's ability to adopt the going concern basis, the Directors have evaluated the Group's ability to meet its liabilities as they fall due in a variety of cash flow scenarios, including a severe but plausible downside scenario, which still results in positive operational cash flows. This scenario applies severe but plausible economic downside assumptions to the Group's base case forecast resulting from the continued economic and social uncertainties surrounding the general outlook in the global economy. Additionally, these forecasts show that the Group will have sufficient financial headroom to meet its financial covenants based on the Revolving Credit facility for a period of at least 12 months from the date of approval of the financial statements and the Directors have also considered the new bond issuance and royalty settlement on the liquidity of the Group.

The key assumptions made included a sales volume sensitivity, a netback price sensitivity, a natural gas supply and price cost sensitivity.

### 2. Material accounting policies (continued)

#### 2.3 New and revised IFRSs

The accounting policies applied in the preparation of the condensed consolidated interim financial statements as of and for the period ended 31 March 2024 are consistent with those applied in the preparation of the consolidated financial statements as of and for the year ended 31 December 2023, except for the new and amended IFRS standards which are valid as of 1 January 2024 and International Financial Reporting Interpretations Committee's ("IFRIC") interpretations summarised below.

#### *Standards, amendments, and interpretations that are applicable from 1 January 2024*

- **Amendments to IAS 1 Classification of Liabilities as Current or Non-Current and Non-current liabilities with covenants;** Amendments made to IAS 1 Presentation of Financial Statements in 2020 and 2022 clarified that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the entity's expectations or events after the reporting date (for example, the receipt of a waiver or a breach of covenant).

Covenants of loan arrangements will not affect classification of a liability as current or non-current at the reporting date if the entity must only comply with the covenants after the reporting date. However, if the entity must comply with a covenant either before or at the reporting date, this will affect the classification as current or non-current even if the covenant is only tested for compliance after the reporting date.

The amendments require disclosures if an entity classifies a liability as non-current and that liability is subject to covenants with which the entity must comply within 12 months of the reporting date. The disclosures include:

- the carrying amount of the liability;
- information about the covenants; and
- facts and circumstances, if any, that indicate that the entity might have difficulty complying with the covenants.

The amendments also clarify what IAS 1 means when it refers to the 'settlement' of a liability. Terms of a liability that could, at the option of the counterparty, result in its settlement by the transfer of the entity's own equity instrument can only be ignored for the purpose of classifying the liability as current or non-current if the entity classifies the option as an equity instrument. However, conversion options that are classified as a liability must be considered when determining the current/non-current classification of a convertible note.

The amendments must be applied retrospectively in accordance with the normal requirements in IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors. Special transitional rules apply if an entity had early adopted the 2020 amendments regarding the classification of liabilities as current or non-current.

- **Amendments to IFRS 16 Lease Liability in a Sale and Leaseback;** In September 2022, the IASB finalised narrow-scope amendments to the requirements for sale and leaseback transactions in IFRS 16 Leases which explain how an entity accounts for a sale and leaseback after the date of the transaction.

The amendments specify that, in measuring the lease liability subsequent to the sale and leaseback, the seller-lessee determines 'lease payments' and 'revised lease payments' in a way that does not result in the seller-lessee recognising any amount of the gain or loss that relates to the right of use that it retains. This could particularly impact sale and leaseback transactions where the lease payments include variable payments that do not depend on an index or a rate.

### 2. Material accounting policies (continued)

#### 2.3 New and revised IFRSs (continued)

##### *Standards, amendments, and interpretations that are applicable from 1 January 2024 (continued)*

- **Amendments to IAS 7 and IFRS 7 Supplier Finance Agreements;** On 25 May 2023, the IASB issued amendments to IAS 7 and IFRS 7 to require specific disclosures about supplier finance arrangements (“SFAs”). The amendments respond to investors that said that they urgently needed more information about SFAs to be able to assess how these arrangements affect an entity's liabilities, cash flows and liquidity risk. To meet investors’ needs, the new disclosures will provide information about:

- (1) The terms and conditions of SFAs.
- (2) The carrying amount of financial liabilities that are part of SFAs, and the line items in which those liabilities are presented.
- (3) The carrying amount of the financial liabilities in (2), for which the suppliers have already received payment from the finance providers.
- (3) The range of payment due dates for both the financial liabilities that are part of SFAs, and comparable trade payables that are not part of such arrangements.
- (4) Non-cash changes in the carrying amounts of financial liabilities in (2).
- (5) Access to SFA facilities and concentration of liquidity risk with the finance providers.

Entities will be required to aggregate the information that they provide about SFAs. However, entities should disaggregate information about terms and conditions that are dissimilar, disclose explanatory information where the range of payment due dates is wide, and disclose the type and effect of non-cash changes that are needed for comparability between periods.

The impacts of these improvements and amendments on the financial position and performance of the Group is being assessed and the Management does not expect any significant effect on the existing disclosures.

##### *Standards and amendments that are issued but not effective as of 1 January 2024*

A number of new standards and amendments to existing standards are not effective at reporting date and earlier application is permitted; however, the Group has not early adopted are as follows.

- **Amendments to IAS 21 - Lack of Exchangeability with covenants – Amendments to IAS 1;** In August 2023, the IASB amended IAS 21 to add requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use when it is not. Prior to these amendments, IAS 21 set out the exchange rate to use when exchangeability is temporarily lacking, but not what to do when lack of exchangeability is not temporary.

The Group evaluates the effects of these standards, amendments, and improvements on the consolidated financial statements.

#### 2.4 Critical accounting judgements and key source of estimation uncertainty

In preparing these condensed interim financial statements, the significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2023.

### 3. Segmental analysis

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-makers (“CODM”). The Group considers that WE Soda Ltd.’s Board of Directors is CODM, which is responsible for allocating resources and assessing performance of the operating segments. The Group considers a combination of factors to determine their reportable segments, such as products and services and geographical areas. The Group’s reportable segments are Eti Soda, Kazan Soda and corporate and other (which includes the Group’s corporate headquarters in London, United Kingdom, IMMC in Germany, Ciner Kimya, Denmar and WIDT in Türkiye, CEI and its subsidiaries and associates in the United States (which consists of Şişecam Chemicals Resources and its subsidiaries)). Eti Soda and Kazan Soda are reported as Türkiye for geographical reporting. Information regarding the Group’s operating segments are reported below.

### 3. Segmental analysis (continued)

#### Segment revenues and results (continued)

The Group currently operates in Türkiye and the United States, in addition to its corporate activities in the United Kingdom and immediate parent in Türkiye. The operations of the Group comprise one class of business, being the extraction of trona and production of soda ash and sodium bicarbonate.

For the purposes of monitoring segment performance and allocating resources between segments, the Group's Directors monitor the tangible, intangible and financial assets attributable to each segment.

The segment revenue reported above represents revenue generated from external customers. There was USD 9.6 million inter-segment sales elimination between Eti Soda and Kazan Soda (2023: USD 8.3 million). Substantially all of the tax charge arises in United Kingdom and Türkiye.

### 4. Financial risk management

The primary financial instruments of the Group consist of bank loans, cash, short-term time deposits and other receivables and payables which arise from transaction. The main objective of the mentioned financial instruments is to finance the Group's operational activities. The Group has other financial instruments such as trade receivables and trade payables arising from direct business operations.

#### • Capital risk management

The Group manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to stakeholders through the optimisation of the debt and equity structure.

The capital structure of the Group consists of equity, debt, which includes the borrowings and leases, cash and cash equivalents and working capital.

The Group's capital management is subject to covenant requirements set out by the significant restrictions under the Revolving Credit Facility.

The Group controls its capital using net debt / total capital ratio. Net debt is calculated as total borrowings (including current and non-current borrowings and lease liabilities as shown in the Condensed Consolidated Interim Statement of Financial Position) less cash and cash equivalents and restricted cash. Total capital is calculated as 'equity' as shown in the Condensed Consolidated Interim Statement of Financial Position plus net debt.

### 4. Financial risk management (continued)

#### • Financial risk factors

The risks to the Group resulting from operations include market risk and liquidity risk. The Group's risk management program generally seeks to minimize the effects of uncertainty in financial markets on the financial performance of the Group.

#### Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. This risk relates to the Group's ability to generate or obtain sufficient cash or cash equivalents to satisfy these financial obligations as they become due. Ultimate responsibility for liquidity risk management rests with the Directors, who have built an appropriate liquidity risk management framework or management of the Group's short, medium, and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The following tables present the contractual maturities of financial liabilities, including estimated interest payments. The tables have been drawn up based on the undiscounted cash flows of derivative and non-derivative financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows.

| As at 31 March 2024               | Carrying value   | Contractual cash flows | Less than 1 year | 1-5 years        | 5+ Years       |

(tabular amounts in thousands of US dollars, except where noted)

### 4. Financial risk management (continued)

#### • Financial risk factors (continued)

##### Foreign exchange risk

The Group consists of two principal operating entities: Eti Soda and Kazan Soda. As such, the Group is principally exposed to risks resulting from fluctuations in foreign currency exchange rates to US dollars (the Group's presentational currency, due to US dollars denominated borrowings and revenue until 31 March 2022), Euro (due to Euro denominated borrowings, revenue, and procurements) and Turkish Lira (due to Turkish Lira denominated revenue and procurement).

The carrying amounts of the Group's significant foreign currency denominated monetary assets and liabilities at the reporting dates are as follows:

| In USD equivalent as at 31 March 2024 | Total          | EUR            | GBP          | CNY      | TRY            |

### 4. Financial risk management (continued)

#### • Financial risk factors (continued)

##### Foreign exchange risk (continued)

##### Foreign exchange sensitivity:

The following table details the Group's sensitivity to a 10% movement against the respective foreign currencies, which represents management's assessment of a likely reasonable change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year-end for a 10% change in foreign currency rates.

| Effect to profit or (loss) before tax | 31 March<br>2024 | 31 December<br>2023 |
|---------------------------------------|------------------|---------------------|
| EUR                                   | 10,707           | (16,315)            |
| GBP                                   | 259              | (890)               |
| TRY                                   | 33,820           | 48,466              |

| <b>Total</b>                          | <b>44,786</b>    | <b>31,267</b>       |

| Effect to equity due to currency translation reserve | 31 March<br>2024 | 31 December<br>2023 |
|--|------------------|---------------------|
| TRY  | (23)             | (45)                |
| EUR  | 88               | -                   |
| <b>Total</b>   | <b>65</b>        | <b>(45)</b>         |

A 10% strengthening of the currencies above at 31 March 2024 would have had an equal but opposite effect on the amounts shown above, assuming all other variables remained constant.

### 5. Business combination, acquisition of controlling interest

#### Acquisition of controlling interests in Imperial Mining, Minerals and Chemicals GmbH

Soda World has acquired Imperial Mining, Minerals and Chemicals GmbH ("IMMC") on 29 February 2024 for a consideration of EUR 20,000. Note 1 – The Company has obtained a patent document which has been examined by the Turkish Patent Institute for the invention entitled “Production of heavy soda from bicarbonate containing solutions, sodium bicarbonate, light soda and sodium silicate” as of 11 November 2004, and the 20 years protection period for the patent is granted by TPI. Within the scope of the patent document examined during the protection period and in the scope of the “Exception in Industrial Property Rights” provisions of article 5/B of the Taxation Law No.5520, the exemption income amount for the year 2021 has been determined. For the Three months ended 31 March 2024, the amount of corporation tax exemption that is benefited is USD21.8 million (31 March 2023: USD41.4 million).

Note 2 – Subsequent to 31 December 2022, a Tax Amnesty Law, named as “the Law on the Restructuring of Certain Receivables and Amendments to Certain Laws”, which introduced provisions regarding restructuring of tax receivables and tax base increase for all taxpayers was published on Official Gazette on 13 March 2023. This law introduced a one-time additional corporate tax for certain corporate taxpayers that benefit from certain exemptions and deductions in the calculation of their corporate income tax base. This one-time additional tax, also named as the “earthquake tax” aimed at creating more public funds to meet the urgent needs of the victims affected by the devastating earthquake that stroke the South-eastern provinces of Türkiye. USD15.5 million presents this additional tax amount accrued up until 31 March 2023.

#### Investment incentives – investment discount application

Under Turkish local legislation, Eti Soda and Kazan Soda come under the ruling of the Council of Ministers on Government Grants with respect of their status in obtaining central Turkish government investment incentive grants.

The decision of the Council of Ministers on Government Grants and Incentives no. 2012/3305 regulating investment incentives became effective after being published in the Official Gazette on 19 June 2012. Within the scope of that decision, Eti Soda has received an Investment Incentive Certificate numbered A129108, which is located in Region 1 and has a contribution rate of 40% for their investments. As of 31 December 2020, within the scope of this certificate, Eti Soda recognised a USD1.4 million deferred tax asset to reduce corporate tax and utilised all of them until 31 December 2022. In the same manner, Kazan Soda has received an Investment Incentive Certificate numbered E109393 and I109393 (together renumbered as J109393 in 2022), which is located in Region 1 and has a contribution rate of 50% for Kazan Soda’s investments. As of the reporting date, within the scope of the certificate, Kazan Soda’s investment incentive balance is equal USD534.3 million (31 December 2023: USD548.5 million) deferred tax asset to reduce corporate tax.

Deferred tax assets are recognised for tax losses carried forward only to the extent that realisation of the related tax benefit is probable.

Deferred tax assets, which are recognised for tax losses carried forward, arise in entities primarily domiciled in Türkiye and relate to tax losses during the investment period in 2018 and net operating losses in subsequent periods. In this respect, the Group has not utilised any previous year losses in 2024 (31 December 2023: USD72.7 million).

In evaluating whether it is probable that taxable profits will be earned in future accounting periods prior to any tax loss expiry, as may be the case, all available evidence was considered, including approved budgets, forecasts, and business plans and, in certain cases, analysis of historical operating results. These forecasts are consistent with those prepared and used internally for business planning and impairment testing purposes. Following this evaluation, it was determined there would be sufficient taxable income generated to realise the benefit of the deferred tax assets and that no reasonably possible change in any of the key assumptions would result in a material reduction in forecast headroom of tax profits so that the recognised deferred tax asset would not be realised.

These rates have been reflected in the calculation of deferred tax at the reporting date.

Note 1 – Weighted average effective interest rate.

Note 2 – USD33.0 million (31 December 2023: USD22.9 million) are related to transaction costs of borrowings and they are capitalised and amortised as finance costs using effective interest rate basis in the profit or loss.

The Group has not capitalised any borrowing cost during the period (2023: USD nil).

The fair value of bank borrowings held at amortised cost approximates the carrying value.

### 19. Deferred income (contract liabilities)

USD133.6 million (31 December 2023: USD162.8 million) of the deferred income consists of short-term and long-term advances received from customers mostly for soda ash and sodium bicarbonate sales of Turkish operating entities. Deferred income represents undelivered goods, which will be recognised as revenue upon delivery of such goods, which is consistent with the prior period. Movement in contract liabilities relates to timing differences.

50,000 shares were issued at GBP1.00 per share at incorporation and were denominated to USD1.32 per share in 2017. All other ordinary shares were issued at USD1.00.

#### Restricted profit reserve for Turkish operations

The Turkish Commercial Code stipulates that the first legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Company's paid-in share capital. The second legal reserve is appropriated at the rate of 10% per annum of all cash distributions in excess of 5% of the paid-in share capital. As of 31 March 2024, Turkish operations' restricted profit reserves consist of legal reserves. The Group's legal reserve is USD83.0 million (31 December 2023: USD83.0 million).

#### Foreign currency translation reserve

The functional currency for each subsidiary is the currency of the primary economic environment in which it operates. The presentation currency of the Group is the US dollar based on the assessment that the Group's revenue mix will be predominantly US dollar denominated due to nature of the industry and US dollar presentation will enhance comparability with its industry peer group. Until 31 March 2022, which is the transition date of US dollars functional currency for Turkish subsidiaries, for the purposes of presenting these consolidated financial statements, the assets, and liabilities of the Group's foreign operations (mainly reportable segments in Türkiye) were translated into US dollars using exchange rates prevailing at the end of each reporting date. Income and expense items were translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions were used. Exchange differences arising, if any, were recognised in other comprehensive income and accumulated in equity (and attributed to non-controlling interests) until 31 March 2022. From 1 April 2022, all transactions are recorded in US dollars at the rates as on the dates of the transactions. Transactions which were originally not in US dollars are converted using exchange rates prevailing at the end of each reporting date.

### 23. Related party transactions (continued)

Receivables and payables from / to related parties are unsecured and are repayable on demand.

During 2023 WE Soda distributed dividends to Kew Soda by USD110.0 million, which is set off against current non-trade receivables from Kew Soda (non-cash settlement).

On 8 March 2024, an Extraordinary General Assembly of Eti Soda has declared an advance dividend amounting to TRY2,950.0 million (approximately USD100.0 million), which will be distributed to Ciner Kimya Yatırımları A.Ş. and Eti Maden İşletmeleri Genel Müdürlüğü proportionate to their shares at the latest within six weeks of declaration.

#### *Royalty set-off for Kazan Soda*

The Group has agreed on set-off of non-trade payables of Park Holding A.Ş. ("Park Holding") against future nine years' royalty payments to be made by Kazan Soda.

For the computation of the present value of the future royalty payments, the annual 9.50% interest rate of the bond issued by the Group has been applied to respective year's royalty computed based on the budget or forecasts financial model of WE Soda. This present value denominated in US dollars (USD276.3 million) is converted to Turkish Lira by using indicative US dollars/Turkish Lira exchange rate announced by The Central Bank of the Republic of Türkiye on 11 March 2024.

The parties have also agreed to mutually compensate each other in the event that the royalty, calculated based on projected ex-works sales, differs from the actual results of respective years. In order to avoid any confusion; if the actuals are lower than the projected future royalties, then Park Holding will pay the difference amount to Kazan Soda or vice versa is applicable. The difference in payment amount will be limited to the difference between actual royalty and gross projected royalty of respective years.

As a result of this set-off, the Group's non-current and current prepaid expenses have been increased by USD237.9 million and USD30.7 million, respectively. USD7.7 million has been accounted in cost of sales as quarterly royalty expense.

### 24. Commitments
